

DEEP SAVVASHER

Diploma Student — Computer Engineering

deepsavvasher@gmail.com | +91 98342 20665 | github.com/deep-drive09 | LinkedIn: Deep Savvasher

PROFILE

Driven diploma engineering student passionate about software development, cloud technologies, and modern tools. Proven problem-solver with strong foundational skills, eager to build impactful tech solutions.

PROJECTS

Seguro – 100% Local AI Agent | 1st Prize: EUREKA! E-Cell RMD

Team of 5

Privacy-first AI agent that runs fully offline, on-device

- Built a 100% local AI agent with no dependency on cloud servers or third-party AI APIs, keeping all user data on the device.
- Pitched Seguro as a startup at the EUREKA! E-Cell RMD business startup competition and won 1st Prize; cleared the online Pre-Zonals round and was selected for Eureka! at IIT Bombay, Asia's largest business model competition.

Sign-Language Communication App | Capstone Project

Two-way accessibility app for deaf and hard-of-hearing users

- Converts text and speech into sign language, performed in real time by a 3D avatar model.
- Recognises signs performed by a person in front of the camera and converts them into text and audio output.

Academic Projects | Diploma Coursework

- Built subject projects across Cloud Computing, Operating Systems, Python, Java and Mobile Application Development (Android).

TECHNICAL SUMMARY

Languages: Python, Java, C, C++, JavaScript, SQL

Web Development: HTML, CSS, JavaScript

Mobile Development: Android (Java)

Core Concepts: Data Structures, Database Management, Data Mining, Prompt Engineering

Areas of Interest: Artificial Intelligence, Cyber Security, UI/UX, Data Analytics

EDUCATION

Diploma in Computer Engineering — Government Polytechnic, Pune | Score: 91.10%

2024 – Present

SSC (10th) — Acharya Shree Vijay Vallabh School | Percentage: 92.8%

2024

ACHIEVEMENTS

1st Prize, EUREKA! E-Cell RMD — Business startup competition, with team project Seguro.

Selected for Eureka! at IIT Bombay — Qualified after clearing the online Pre-Zonals round.
